

## **PATRICK W. FISHER, P.E.**

Mr. Fisher is a 1975 graduate of Penn State University and is a registered professional engineer in civil engineering in 12 states. Mr. Fisher's areas of expertise include all branches of civil engineering and 50 years of construction experience.

Since 2013, "Pat" Fisher has been the principal and owner of Fisher Engineering and Consulting, LLC. Mr. Fisher has specialized in forensic engineering for the past 20 years performing evaluations, analysis, and inspections of residential, commercial and industrial incidents to resolve cause and origin issues. Specializing in disasters such as explosions, wind, flood, tornados, and hurricane damage.

Since 2017, Pat has been a member of Deutsches Haus and constant volunteer having worked in the kitchen, preparing for Oktoberfest; providing grounds maintenance and landscaping for the property; participating in all work parties as well as special projects; volunteering for special events such as Oktoberfest, Volkfest, Christkindlmarkt, and Trivia night. Pat feels as though he can contribute to the Haus through his experience and knowledge to make the Haus a better place.
